## BACKPACK VACUUMS

### 6 or 10 Quart Backpack Vacuums

The Atlas backpack vacuum series from EDIC provides cleaning professionals with a comfortable, ergonomic, high-performance solution to daily maintenance routines. Feature for feature, they defy the competition!

**COMFORT**

Atlas backpack vacuums are lightweight and easy for anyone to handle. The ergonomically-designed Velcro straps at the chest and hips result in a comfortable fit for any sized operator. A unique slide adjustment hooks the shoulder straps together for a higher range of motion. The on/off switch is conveniently located at the hip level and mounted on top for unparalleled ease of operation.

**PERFORMANCE**

The Atlas comes with our extraordinary Ultrastat 3-ply composite bags treated with an anti-microbial agent that provides exceptional airflow even when full, allowing for greater productivity. This exclusive filter bag is fitted with a durable plastic rim for an airtight seal, and the seams are sonically welded (as opposed to glued).

The Atlas also utilizes a dome filter made with HEPA media as part of its multi-stage filtration system. Our unique airflow design provides quiet operation, and the baffled exhaust goes out the back, away from the operator, for a higher level of comfort and to provide a final stage of filtration.

The result is an advanced 4-stage filtration system that offers higher dust retention and a much longer filtration cycle with improved durability and efficiency.

## BACKPACK VACUUMS

## Features & Benefits

- Longer exhaust chamber and diffused exhaust air for quiet operation
- All Atlas units come with an Ultrastat filter bag that uses a revolutionary synthetic material allows greater air flow even when the bag is full
- A dome filter that utilizes HEPA media to provide better filtration efficiency, greater dust retention and longer useful life
- 3-position hip adjustment for wider or narrower hips allows the unit to sit more comfortably on the hips
- Ergonomically designed harness with multi-adjustable settings for optimum comfort
- Lightweight – only 10 lbs.
- Hip-mounted switch results in easy on/off
- Precision-molded cloth filter bag rim holds it's shape to prevent collapsing inside the unit when the bag is full
- 4-stage filtration
